Expertise

Litigation & Insolvency , Restructuring

Benjamin Bronzon is a Senior Associate in our Restructuring and Insolvency group in Hong Kong.

Ben specialises in both contentious and non-contentious restructuring, turnaround, and insolvency law matters. He has extensive experience advising financial institutions, insolvency practitioners, debt funds, creditors, and debtors on all elements of informal and formal restructuring (including refinancings, workouts, company arrangements and schemes of arrangement) as well as insolvency related litigation, liquidations, receiverships, administrations, liability management, distressed debt transactions, enforcement of securities and debt recovery matters in a range of industries and sectors.

Ben is admitted to practise in Australia and is a registered foreign lawyer in Hong Kong. Prior to joining Harneys in October 2023, Ben was a senior associate at a leading Australian law firm in its restructuring and insolvency group.

In addition to his time in law firms, Ben spent several years at Australia's Westpac Bank acting on various performing and non-performing exposures. Given his time working across Westpac's commercial, institutional banking and credit restructuring teams, Ben has obtained a detailed understanding of the documentation, securities, and management of banking transactions, in addition to how financial institutions manage risk both in terms of performing and non-performing loans in a highly regulated environment.
